**FOR IMMEDIATE RELEASE**

*Pinecrest to host an Electric Vehicle Tailgate as part of National Drive Electric Week*

**Pinecrest, FL** – Electric vehicle (EV) drivers, enthusiasts, and those intrigued by the benefits of driving an electric vehicle are invited to join the Pinecrest Electric Vehicle Tailgate Event on Saturday, September 19th from 11:00 a.m. to 3:00 p.m. at Pinecrest Gardens, 11000 Red Road.

The event is tailored to highlight the fun, clean-air benefits and cost-savings of electric cars as part of the annual National Drive Electric Week. Visitors will be able to meet and greet EV owners, take ride-and-drives from local EV dealers, and browse vendors promoting EV aftermarket products. There will also be children's activities and food trucks on site.

"Electric cars are freeing Americans from the gas pump, cleaning the air of dirty fumes, and best of all – they're more fun to drive," said Pinecrest Mayor Cindy Lerner. "Our Electric Vehicle Tailgate event will educate the community about how these cars can drive thousands and thousands of miles without any oil or gas while saving money and slashing air pollution and our dependence on oil."

Pinecrest's event is one of more than 100 across the country where EVs will be spotlighted through similar events that include electric car parades, "tailpipe-free" tailgate parties, recognition of leaders promoting EVs and launches of new public EV charging stations.

“Our goals for Saturday’s event include educating attendees and empowering families with the knowledge they need to feel confident in choosing electric for their next car purchase”, said Christine Heshmati, Coordinator of Southeast Florida Clean Cities Coalition.

Southeast Florida Clean Cities Coalition, Pinecrest Gardens, and electric vehicle dealers have teamed up with National Drive Electric Week national organizers Plug In America, the Sierra Club, and the Electric Auto Association to put on this fun, family-friendly event.

This event is sponsored by DOC Bornee USA, an EV charging station and EV technology company.
